

## Program Information

Fire-Brigade Old-Timer World Championship 2008  
4<sup>th</sup> – 6<sup>th</sup> of July 2008 – Grossglockner / Austria  
[www.feuerwehrautowm.at](http://www.feuerwehrautowm.at)

### **Second Fire-Brigade Old-Timer World Championship: "The Glockner is Burning!"**

The Grossglockner (3,798 m; highest mountain in Austria & highest alpine road in Europe) has proven itself often enough to the endurance test of cyclists and old timers. However, what's happening this year on the "northern ramp" of Austria's highest mountain, tops any previous event. At the Fire-Brigade Old-Timer World Championship (4<sup>th</sup> - 6<sup>th</sup> of July, 2008) total commitment is asked from the veterans from Steyrer, Rosenbauer, Daimler to Unimog and TAM. However it's not about fire and flame, but the Fire-Brigade Old Timers "World Championship".

Many fire trucks such as Opel, Mercedes and Volkswagen, which have been huffing and puffing up the mountain roads for at least 25 years, will be found on the Grossglockner High Alpine Road.

The initiators have reported that inquiries and registrations from **all German-speaking countries**, the **Czech Republic**, **Hungary** and **Slovenia** have already been submitted. There are "uniform-time-trials" on the Grossglockner High Alpine Road, so that a fair overall winner can be determined for all of the diverse models. Numerous important side events are planned: for instance a Fire-Brigade Old-Timer Korso, a fire-engine show, a **team-spray-competition** with a hand pump from 1913. At the **World Champion Evening Ball** the first Fire-Brigade Old Timer World Champion and the winner of the team-spray-competition will be celebrated "full blast".

The following rare old timers among others are registered: Steyr 1500 Cabrio fire-brigade car manufactured in 42; Campagnola 1970 from Italy; Landrover 1965; Haflinger 703 manufactured in 1963 etc.....
